**NEED FOR THE RULE(S):**

House Bill 4143, passed during the 2018 legislative session, requires all practitioners in Oregon to register with the Prescription Drug Monitoring Program by July 1, 2018 and allows the Oregon Health Authority to adopt administrative rules to govern sections 7 and 10 of the bill. The short time frame between passage of HB 4143 on March 27, 2018 and the July 1st deadline is too short to allow for standard permanent rulemaking to be effective and provide any benefit.

The temporary rule will allow the Oregon Health Authority to remove unnecessary burden on practitioners while preserving the legislative intent. This includes clarifying the conditions under which a practitioner is required to register.

**JUSTIFICATION OF TEMPORARY FILING:**

The Authority finds that failure to act promptly will result in serious prejudice to the public interest, the Authority, and Oregon healthcare practitioners. These rules need to be adopted promptly so that clarification of registration requirements can be available during the brief registration window directed in HB 4143, which ends July 1, 2018. Failure to adopt these rules would result in a larger number of practitioners who do not have a reason to access the Prescription Drug Monitoring Program being required to register with the program. This is an unnecessary burden on the practitioners and a privacy concern to allow those without a strong use-case access to the Prescription Drug Monitoring Program data.

RULE TITLE: Practitioner Registration Requirements

RULE SUMMARY: Adopt OAR 333-023-0825: List criteria under which a practitioner is required to register with the

Prescription Drug Monitoring Program.

RULE TEXT:

(1) No later than July 1, 2018, a practitioner that meets the following criteria must register with the Prescription Drug Monitoring Program in accordance with OAR 333-023-0820(8) in order to have access to the Program's electronic system:

(a) Held an active license on March 27, 2018, or becomes a practitioner before July 1, 2018; and

(b) Has an active United States Drug Enforcement Agency (DEA) registration.

(2) A practitioner who becomes licensed on or after July 1, 2018, and who has an active DEA registration must register with the Program as specified in section (1) of this rule, within 10 calendar days of being both licensed as a practitioner and having a DEA registration.
