**Guests:**

Decisions
1. The meeting minutes from August 2016 were approved as written.

1. Standing Agenda Items

- a. System issues and customizations – HB 4124

Millet reported on contract amendment 7 with HID. If the contract is signed and executed then the project team will move forward with implementation work, obtain and report estimated dates, and develop business process. As of now the HID development of the interface HUB is believe to be a relatively short process as they have worked with Appriss before but a specific time frame will have to be determined once the contract is signed.

The HID EDIE direct connect will be a new amendment and not combined in amendment 7 as previously presented. The direct connect talks are moving forward with PDMP staff, HID, and CMT. These next meetings will determine the feasibility and technical challenges that need to be overcome.

Eskridge provided an update on the RAC progress and timeline, on Nov 1 she will submit the revised rule to the rule coordinator and on Nov 15<sup>th</sup> will file the Notice of Proposed Rulemaking (NPRM) with the Secretary of State. Rulemaking documents will then be shared via the PDMP website. On Dec 1<sup>st</sup> a notice will be published in the Secretary of State's Oregon bulletin and a public hearing will be held on or after Dec 19<sup>th</sup>.

b. Review quarterly metrics

Simpson reviewed the changes in PDMP metrics from the last Advisory Commission meeting. The report shared compared quarter 3 of 2016 to quarter 3 of 2015 and showed significant changes in several areas. PDMP enrollment and utilization have increased substantially. The number of prescriptions written also decreased by 7 percent. These metrics were produced using HID's programs and will be verified using the raw data once it is received.

c. BJA grant closeout

Simpson shared a report showing the impact that the BJA grant funds had on PDMP enrollment. This report compared grant funded counties to themselves before they received the funds to after funding was received and to non-grant funded counties to identify trends. Overall the grant funds had a modest impact on enrollment. The tri-county area and Deschutes county did significantly accelerate their enrollment during the funded period.

Several Advisory Commission members were interested in additional information and arrangements were made to generate a more targeted report.

d. Research study updates

Van Otterloo shared a research update; there were no new research projects launched during the recent months but because of PDMP utilization and impact on patient outcomes questions Van Otterloo shared the preliminary findings that have been released to the program from the current research partners.

2. Old Business

a. Legislative concepts – 2017 Session

Millet indicates that main items for consideration in up-coming session, possible interstate data sharing capability, expansion of access to include county health officials and medical directors and potential mandatory enrollment.

b. State of Oregon v. the DEA lawsuit update

The appeal of the finding against the DEA will be heard on November 7<sup>th</sup> by the Ninth Circuit Court.

3. New Business

Ramirez proposed considering alternate days of the week for Advisory Commission meetings to potentially allow consistently absent members to join. The group present indicated that they would prefer to keep it on Fridays but a doodle poll will be sent to all members to decide next date.

4. Open Issues – None
5. Public Comment – No public comment
6. Next Meeting Date: January 20<sup>th</sup>, 2016, PSOB Room 918, 1pm
7. Member Wrap-Up
8. Adjournment – 2:33 pm
